This most recent NVIC provides guidance on developing security plans, procedures, and measures for facilities. Until final regulations regarding facility security are published, this Circular may be used as a benchmark to develop and implement security measures and activities in anticipation of evolving domestic and international security regimes.

The full text of NVIC 11-02 is available at <http://www.uscg.mil/hq/g-m/nvic/11-02.pdf>. If you have any questions or concerns regarding this NVIC please contact MSO Detroit's Port Security Department at (313) 568-9504.
